NOTE 1.—This blank will be used for both certificates and re-enlistments—enlistment of veterans, &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the returning returns of the enlistment (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company to which the soldier has served should be given on the back.

NOTE 2.—An enlistment binds to service. A recruit to enlist in all cases, previous payment of pay, bounty, pension, &c. A recruit in roll must, in all cases, be blind to the Adjutant General's Office as evidence of enlistment. The recruiting officer, commissary, or assistant commissary of recruits, as the case may be, will countersign both certificates on having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

I, Charles Siebriecht, born in Celle
in the State of Hannover, aged Thirty Three years,
and by occupation a Shoemaker, Do HEREBY ACKNOWLEDGE to have
volunteered this ninth day of November, 1864
to serve as a Soldier in the Army of the United States of America, for
the period of THREE YEARS, unless sooner discharged by proper authority;
Do also agree to accept such bounty, pay, rations, and clothing, as are, or may be,
established by law for volunteers. And I, Charles Siebriecht, do
solemnly swear, that I will bear true faith and allegiance to the United States
of America, and that I will serve them honestly and faithfully against all
their enemies or opposers whomsoever; and that I will observe and obey the
orders of the President of the United States, and the orders of the officers
appointed over me, according to the Rules and Articles of War.

I CERTIFY, ON HONOR, That I have carefully examined the above-named Volunteer, agreeably

mental infirmity, which would in any way disqualify him from performing the duties of a soldier.

EXAMINING SURGEON.

I CERTIFY, ON HONOR, That I have minutely inspected the Volunteer Charles Siebriecht
previously to his enlistment, and that he was entirely sober when enlisted; that, to the best of my
judgment and belief, he is of lawful age; and that, in accepting him as duly qualified to perform the
duties of an able-bodied soldier, I have strictly observed the Regulations which govern the recruiting
service. This soldier has Blue eyes, Brown hair, Fair complexion, is five

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed *down* before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of skin a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal Standard in each particular region. For example, if the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chancroid, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The venereal scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or Depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Oeconomy, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should any be subsequently raised, and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

War Department,

Adjutant General's Office,

Washington, May 18, 1865.

Sir:

In reply to your letter requesting a Descriptive List of James Simpson a Private in Company F, 149
Regiment Me. Volunteers, I have the honor to furnish the
following "Descriptive List" obtained from the records of this Office: which, from the
want of the necessary data, (which is in the possession of the Company Commander)
is only "partial."

NAME, RANK AND REGIMENT, DESCRIPTION, &c.

James Simpson Private in Company F
149 Regiment of Me. Volunteers, is 29
years of age; but no further "description" can be obtained from the files of this Office.
He was enrolled on the 2 day of Sept., 1864,
at the town of Fulton in the State of Me.
by St. McFarland, and mustered into the service of the United
States on the 2 day of Sept., 1864, at the
town of Fulton, in the State of Me.
by St. McFarland, to serve for the period of one years,
or "during the war."

ACCOUNT OF PAY

It is stated on the Muster Rolls of his Company for the months of
Jan. & Feb. 1865 that he was last paid by Paymaster
Wm. Carter to the 1 day of
Jan., 1865.

ACCOUNT OF CLOTHING.

The files of this Office furnish no account of clothing; it must be obtained, if
obtained at all, from his Company Commander.

REMARKS.

On the above Muster Roll (latest on file) reported
a Private Present for duty.

Very respectfully,

Your obedient servant,

Samuel H. ...

Assistant Adjutant General.

This "Partial Descriptive List" is given in order that the soldier may be discharged at once, without waiting for a descriptive list from his company
commander; and, having been used by the proper officer to make out the soldier's final statements, should be endorsed with a statement to that effect by
this officer. This endorsement should exhibit a full statement of the time for which the soldier was allowed pay on his final statements, the clothing
account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the
company commander of the soldier, who will enter all the data necessary to a full understanding of the soldier's account on the muster roll upon which the
soldier's discharge is reported. This list will then be destroyed. The object of this is, that the remaining portion of the soldier's account may be settled
upon the receipt of these final rolls, and the soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not
appear on his final statements from the fact that this list is incomplete or "partial."

MODE OF EXAMINING A RECRUIT.

(From Taylor's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the man being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chancroid, though not sufficient to disqualify, let it be noted under the proper head, and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the man being walked about freely, that every organ concerned in recruitment may be subjected to inspection. For obvious reasons none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of skin a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that an important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circosole, though not sufficient to disqualify, let it be noted under the proper head, and so of Hemorrhoids or any other affection. The vacuole scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised, and if there be any doubts about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspecting to the Adjutant General of the Army."

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A master-in-muster, in all cases, precedes payment of pay, bounty, pension, &c. A master-in-roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster in. The recruiting officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the recruiting officer.

Sec. 12. And be it further enacted, That the fees of agents and attorneys for making out and causing to be executed the papers necessary to establish a claim for a pension, bounty, and other allowance before the Pension Office, under this act, shall not exceed the following rates: For making out and causing to be duly executed a declaration by the applicant, with the necessary affidavits, and forwarding the same to the Pension Office, with the requisite correspondence, ten dollars: which sum shall be received by such agent or attorney in full for all services in obtaining such pension, and shall not be demanded or received, in whole or in part, until such pension shall be obtained; and the sixth and seventh sections of an act entitled "An act to grant pensions," approved July (fourteenth) eighteen hundred and sixty-two, are hereby repealed.

And be it further enacted, That any agent or attorney who shall, directly or indirectly, demand or receive any greater compensation for his services under this act than is prescribed in the preceding section of this act, or who shall contract or agree to prosecute any claim for a pension, bounty, or other allowance under this act, on the condition that he shall receive a per centum upon any portion of the amount of such claim, or who shall wrongfully withhold from a pensioner or other claimant the whole or any part of the pension or claim allowed and due to such pensioner or claimant, shall be deemed guilty of a high misdemeanor, and, upon conviction thereof, shall, for every such offense, be fined not exceeding three hundred dollars, or imprisoned at hard labor not exceeding two years, or both, according to the circumstances and aggravations of the offense.

Approved July 4, 1861.

NOTE 10.—If any soldier is charged a higher fee than that allowed by the act, he should report the fact and the name of the agent to the Adjutant General, in order that steps may be taken to have the same returned.

FINAL STATEMENT

OF

VOLUNTEERS.

Wied May 11 1865

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out. (Final Statements are never given to men mustered out of service.) That he may at once receive from the Paymaster the pay, &c., due him, and the captain or other commanding officer commanding the company will certify to the act of the delivery of the duplicate certificates, with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster, the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements and endorsed with a statement to that effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowance that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for each pay, &c., are settled by the 3d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Discharges."

NOTE 5.—Bounty paid by State authorities, and not by the United States, and not to be entered on this statement.

NOTE 6.—Amounts due the Soldier and Landwarrant must be entered on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for licensed volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements to the Adjutant General, Washington, D. C.

NOTE 9.—If the soldier is a drafted man or substitute, the space for time &c., of enlistment, should contain only the word drafted or substitute as the case may be. If the soldier is a "Veteran," (or REENLISTED) the words as a veteran (or reenlist) as the case may be, should be interlined after the words mustered into the service of the U. S. A statement of all the installments of Veteran or Reenlist Bounty RECEIVED by the Soldier must be made on the back of each final statement.

72nd Regiment of Inf.

42nd Regiment of Volunteers

(A. G. O., No. 74 & 75.)

RECRUITING OFFICER

NOTE 1.

The company commander will here add a statement of all the facts known to him concerning the disease or wound, or cause of disability of the soldier: the time, place, manner, and all the circumstances under which the injury occurred, or disease originated or appeared: the duty, or service, or situation of the soldier at the time the injury was received or disease contracted, stating particularly whether the injury was received or the disease contracted in the line of his duty; and whatever other facts may aid a judgment as to the cause, immediate or remote, of the disability, and the circumstances attending it.

When the facts are not known to the company commander, the certificate of any officer, or affidavit of other person having such knowledge, will be appended—as the surgeon in charge of a hospital, the officer commanding a detachment of recruits, &c., &c.

NOTE 2.

When a probable cause for pension, special care must be taken to state the degree of disability—as *l. p.*, &c., &c.; to describe particularly the disability, wound, or disease; the extent to which it deprives him of the use of any limb or faculty, or affects his health, strength, activity, constitution, or capacity to labor or earn his subsistence. The surgeon will add, from his knowledge of the facts and circumstances, and from the evidence in the case, his professional opinion of the cause or origin of the disability. In the case of discharges by Medical Inspectors, the last paragraph will state that the "discharge was given by consent of the soldier, after a personal examination, and for disability, the nature, degree, and origin of which are correctly described in the within certificate."

Par. 1240 Regulations, Edn. 1861.

Medical officers, in giving certificates of disability, are to take particular care in all cases that have not been under their charge; and especially in epilepsy, convulsions, chronic rheumatism, derangement of the urinary organs, ophthalmia, ulcers, or any obscure disease liable to be feigned or purposely produced; and in no case shall such certificate be given until after sufficient time and examination to detect any attempt at deception.

DIRECTIONS.

This certificate will be made out in duplicate by the soldier's company commander, or other officer commanding the separate detachment to which he belongs, and sent by him to the surgeon who has charge of the hospital where the soldier is sick. The surgeon will then fill out and sign the surgeon's certificate, and forward these papers to the regimental, detachment, or post commander who will forward them, with his action endorsed thereon, through the proper channel, to his division commander; or, if the troops are not attached to a division, to his corps, department, or other commander or officer to whom the authority to discharge enlisted men may be specially delegated.

These certificates, after having received the action of the highest authority to which they are required to be sent, will be returned through the same channel to the regimental, post, or detachment commander, who will, if the discharge is authorized by the endorsement of the proper authority, sign the soldier's discharge, and the last certificate on this paper, see that the soldier is furnished with the proper final statements in duplicate, and forward BOTH of these certificates direct to the Adjutant General United States Army, at Washington, D. C.; they will not, under any circumstances, be given into the hands of the soldier.

They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company to which the soldier last served should be given on the back.
Note 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. FINAL STATEMENT

OF

James M. King
44 Reg't of *Infantry*

Disch Dec 4 1864
VOLUNTEERS.

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out. (Final Statements are never given to men mustered out of service,) that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 3d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Butler and Laurence must be entered on the muster roll on which the discharge, death, desertion, &c., is reported as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the soldier is a drafted man or substitute, the space for name, &c., of enrolled, should contain only the word *drafted* or *substitute*, as the case may be. If the Soldier is a "VETERAN," (or RE-ENLISTED) the words as a *veteran*, (or *re-enlist*) as the case may be, should be inserted after the words *mustered into the service of the U. S.* A statement of all the installments of *Pension or Bounty Money RECEIVED* by the Soldier must be made on the back of each final statement.

OF

49 Reg't of Inf Mo

VOLUNTEERS

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out. (Final Statements are never given to men mustered out of service.) That he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be added upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 3d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier for Land Bounties must be entered on the muster roll on which the discharge is reported, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for bounty volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the soldier is a drafted man or substitute, the space for this, &c., of enrolled, should contain only the word drafted or substitute, as the case may be. If the Soldier is a "VETERAN," (or RECRUIT,) the words as a veteran, (or recruit,) as the case may be, should be interlined after the words enrolled into the service of the U. S. A statement of all the installments of Veteran or Recruit Bounty RECEIVED by the Soldier must be made on the back of each final statement.

The said Private Owen T. Smith was last paid by Paymaster Maj. Tilden, to include the 29th day of February, 1865, and has pay due him from that time to the present date; he is entitled to pay and subsistence for TRAVELING to place of enrollment, and whatever other allowances are authorized to volunteer soldiers, drafted men, or militia, so discharged. He has received from the United States CLOTHING amounting to \$51 ⁸⁰/₁₀₀ dollars, since the 21st day of August, 1864, when his clothing account was last settled. He has received from the United States 33 ³³/₁₀₀ dollars advanced BOUNTY.

There is to be stopped from him, on account of the State of _____, or other authorities, for **CLOTHING**, &c., received on entering service, _____ 100 dollars; and for other stoppages, viz: *one rifle bayonet one screw driver & one trench one watch* _____ \$2 76 100 dollars.

He has been furnished with TRANSPORTATION in kind from the place of his discharge to _____; and he has been SUBSISTED for TRAVELING to his place of enrollment, up to the _____, 186 .

And in case any of the officers, so authorized to take care of the effects of deceased officers and soldiers, should, before they have accounted to their representatives for the same, have occasion to leave the regiment or post, by preference or otherwise, they shall, before they be permitted to quit the same, deposit in the hands of the commanding officer, or of the assistant military agent, all the effects of such deceased non-commissioned officers and soldiers, in order that the same may be secured for, and paid to, their respective representatives.

Final statements of pay, clothing, &c., in duplicate, will be sent to the Adjutant General with one copy of the inventory. When a soldier dies at a post or station absent from his company, it will be the duty of his immediate commander to furnish the required inventory and final statements, and, at the same time, to forward to the commanding officer of the company to which the soldier belonged, a report of his death, specifying the date, place, and cause; to what time he was last paid, and the money or other effects in his possession at the time of his decease; which report will be noted on the next muster roll of the company to which the man belonged. PAR. 154. In all cases cases of sales by the Council of Administration, a statement in detail, or account of the proceeds, duly certified by the Council and commanding officer, accompanied by the Paymaster's receipt for the proceeds, will be forwarded by the commanding officer to the Adjutant General. The statement will be endorsed, "Report of the proceeds of the effects of _____, late of company (—) _____ regiment of _____, who died at _____, the _____ day of _____, 186—."

NOTE 1.—The effects in all cases, when called for, should be turned over to the legal representative, without further authority from the Adjutant General. When the effects are turned over to the relatives of the deceased before their inventories are sent to the Adjutant General, their receipts therefore should be attached to the inventories. In all other cases, one copy will be sent with a letter of transmittal direct to the Adjutant General, and a duplicate retained by the officer.

NOTE 2.—Particular care should be taken to take receipts in duplicate from the Paymaster for any funds turned over to him; one copy should be sent direct to the Adjutant General and one retained by the officer.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of fire cutting upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a *Chenocle*, though not sufficient to disqualify, let it be noted under the proper head, and so of *Hæmorrhoids* or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, the fact should be recorded. *Boys* sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised, and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be entered upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistments of veterans, etc., etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the recruiting officer (not the recruiting agent) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, etc. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of volunteers, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will counter-sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

FINAL STATEMENT

OF

219 Regt of Missouri Infy

June - July 13 1865
VOLUNTEERS.

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out. (Final Statements are never given to men mustered out of service.) That he may at once receive from the Paymaster the pay, &c., due him, and the captain or other commanding officer accompanying the company will certify to the act of the delivery of the duplicate certificates, with these certificates the Soldier is entitled to his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the office. As given the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the St Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Discharges."

NOTE 5.—Bounty paid by State authorities, and bounty of the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and his dependents, entered on the muster roll on which the discharge, death, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for Greenback volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the Soldier is a drafted man or substitute, the space for these &c., of enrolled, should contain only the word drafted or substitute, as the case may be. If the Soldier is a "VOLUNTEER" (as the word is used as a soldier, not as a citizen) as the case may be, should be inserted after the words mustered into the service of the U. S. A statement of all the appointments of Service or Records must be RECEIVED by the Soldier and be attached to the back of each final statement.

When any non-commissioned officer or soldier shall die, or be killed in the service of the United States, the then commanding officer of the troop or company shall, in the presence of two other commissioned officers, take an account of what effects he died possessed of, arms, his arms and accoutrements, and transmit the same to the office of the Department of War, which said effects are to be accounted for, and paid to the representatives of such deceased non-commissioned officer or soldier. And in case any of the officers, so authorized to take care of the effects of deceased officers and soldiers, should, before they have accounted to their representatives for the same, have occasion to leave the regiment or post, by preferment or otherwise, they shall, before they be permitted to quit the same, deposit in the hands of the commanding officer or of the assistant military agent, all the effects of such deceased non-commissioned officers and soldiers, in order that the same may be secured for, and paid to, their respective representatives.

ARMY REGULATIONS—EDITION OF 1861.

DECEASED SOLDIERS.

PAR. 132. Inventories of the effects of deceased non-commissioned officers and soldiers, required by the 93rd Article of War, will be forwarded to the Adjutant General, by the commander of the company to which the deceased belonged, and a duplicate of the same to the command of the regiment. Final statements of pay, clothing, &c., in duplicate, will be sent to the Adjutant General with one copy of the inventory. When a soldier dies at a post or station absent from his company, it will be the duty of his immediate commander to furnish the required inventory and final statements, and, at the same time, to forward to the commanding officer of the company to which the soldier belonged, a report of his death, specifying the date, place, and cause; to what time he was last paid, and the money or other effects in his possession at the time of his decease, which report will be noted on the next muster roll of the company to which the man belonged. Each inventory will be endorsed, "Inventory of the effects of _____, late of company (—) _____, regiment of _____, who died at _____, the _____ day of _____, 186—." If a legal representative receives the effects, it will be stated in the report. If the soldier leaves no effects, this fact will be reported.

PAR. 133. Should the effects of a deceased non-commissioned officer or soldier not be administered upon within a short period after his decease, they shall be disposed of by a Council of Administration, under the authority of the commanding officer of the post, and the proceeds deposited with the Paymaster, to the credit of the United States, until they shall be claimed by the legal representatives of the deceased.

PAR. 134. In all such cases of sales by the Council of Administration, a statement in detail, or account of the proceeds, duly certified by the Council and commanding officer, accompanied by the Paymaster's receipt for the proceeds, will be forwarded by the commanding officer to the Adjutant General. The statement will be endorsed, "Report of the proceeds of the effects of _____, late of company (—) _____, regiment of _____, who died at _____, the _____ day of _____, 186—."

NOTE 1.—The effects in all cases, when called for, should be turned over to the legal representative, without further authority from the Adjutant General. When the effects are turned over to the relatives of the deceased before these inventories are sent to the Adjutant General, their receipts therefor should be attached to the inventories. In all other cases, one copy will be sent with a letter of transmittal direct to the Adjutant General, and a duplicate retained by the officers.

NOTE 2.—Particular care should be taken to take receipts in duplicate from the Paymaster for any funds turned over to him; one copy should be sent direct to the Adjutant General and one retained by the officer.

Statement of John Harrison
made St. Louis, Mo. Jan'y.
20th 1865.

John Harrison of lawful
age being duly sworn
deposes and says: -

I was Sergt in Co. B 9th.
Cavly. M. S. M. and sta-
tioned at Mexico, Mo. and
was detailed on the 18th
Sept. last by order of
Brig. Genl. Fisk to re-
port to Lt Col. J. Harding
Act. Prov. Mar. at St Jos-
eph. I was ~~detached~~
Jan'y 14th inst. to report
to Lt J. J. Spencer 49th
Mo. Vols. at Mexico.

He told me as a Sergt.
Todd Co 14 49th Mo. Vols.
who was with me, that
he wished us to go Illin-
ois to catch bushwhack-
ers who had gone over
there from Missouri.

We were ordered to go
as citizen detectives

and Lt. Spencer was to
pay our expenses. We
got ready and started
for Springfield a week
ago last Wednesday
the 18th inst. He gave
us no money to start
with and we used our
own money which I
lent Lt. Spencer
for the purpose. I lent
him three dollars and
Todd lent him \$5. five
dollars. We were gone
only one day. My in-
structions from Lt. Spen-
cer were verbal, and
were to arrest such
suspicious characters
as I saw proper. I
undertook to arrest a
fellow named David
Lewis whom I suspect-
ed of being a Missouri
bushwhacker from
some conversations
I had with him. He

refused to go and I struck
him on the head with
my revolver. I then
took him to the enroll-
ing Pro. Mar. office,
and the Pro. Mar. de-
manded my authority.
I told him I was under
orders from Lt. Spencer.
He replied to me that
I was a damned son
of a bitch and that
I had no business there,
and I had better get
back to Missouri. I
told him I could furn-
ish my authority
but he would not
listen but sent for
the city police. I
was held prisoner for
three hours until a
telegram came from
the Genl. in command,
then on a visit at
Chicago. I returned
that night to Quincy
and reported there that

permission from Lt. Spencer to return to Mexico. I should have stated above that ~~the~~ Lt. Spencer accompanied us to Springfield and separated from us after giving us the verbal instructions. He also returned with us to Quincy.

I spent \$6.50 six dollars and a half. I don't know how much Todd spent. Lt. Spencer paid me back my six dollars and a half \$6.50 at Mexico yesterday. Said sum including what he borrowed of me before we started. He told me yesterday that he had got whatever money the prisoners had and he was using it.

Todd returned yesterday with Lt. Spencer but he told me that Lt. Spencer had not paid him his expenses and borrowed money.

I came down last night to this city with some prisoners.

Further deponent saith not.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment binds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circocela, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, after consideration, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any doubts about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed would be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

FINAL STATEMENT

OF

Priv. John J. M. Stephens
49 Reg't of M^c Light

VOLUNTEERS.

Ind. Feb'y 15 1865

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged previously to the discharge of his company, that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMANDING officer commanding the company will certify to the act of the delivery of the duplicate certificates; on these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his voucher the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. This endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, as to comprise a complete exhibit of his account. It will then be transmitted to the company commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 3d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Sutter and Landrons must be entered on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the 3d Auditor, Washington, D. C.

DECLARATION OF RECRUIT.

Note 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the regular service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

Note 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, company, or assistant commissary of musters, as the case may be, will counter-sign both enlistments as having mustered the soldier into the service of the United States, and there either of them is given to the recruiting officer.

I, James A Stewart desiring to VOLUNTEER as a soldier in the ARMY OF THE UNITED STATES, for the term of TWELVE MONTHS, DO DECLARE, that I am thirty years and months of age; that I have never been discharged from the United States service on account of disability or by sentence of a court martial, or by order before the expiration of a term of enlistment; and I know of no impediment to my serving honestly and faithfully as a soldier for twelve months.

Note 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.

Note 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, etc. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will counter-sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

VOLUNTEERS.

Rec'd Capt S. J. H. S.

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged previously to the discharge of his company, that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMANDING OFFICER commanding the company will certify to the act of the delivery of the duplicate certificates; on these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his voucher the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. This endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the company commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowance that may be due him at the time of his discharge, and which may not appear on his final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 3d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to arms, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Discharges."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and Laurence must be entered on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements in duplicate, to the Adjutant General, Washington, D. C.

FINAL STATEMENT

OF

for *Wm Standish*
49th Reg't of *Ma. Vols.*
Disch June 8th 1865

VOLUNTEERS.

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out. Final Statements are never given to men mustered out of service, that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates, with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 2d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and Landress must be entered on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the Soldier is a drafted man or substitute, the space for these, &c., of course, should contain only the word drafted or substitute, as the case may be. If the Soldier is a "VETERAN," (or RECRUIT,) the words as a veteran (or recruit,) as the case may be, should be interlined after the words mustered into the service of the U. S. A statement of all the transactions of Veterans or Recruits Bounty RECEIVED by the Soldier must be placed on the back of each final statement.

They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.
Note 2—An enlistment binds to service. A master-in-must, in all cases, precedes payment of pay, bounty, pension, etc. A master-in-must must, in all cases, be filed in the Adjutant General's Office as evidence of muster in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the recruiting officer.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed as they essentially may be, and sometimes are, by incrustations of skin a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting ecchymosis or slight depression, let it be noted thus: 'Ecchymosis and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circumcised, though not sufficient to disqualify, let it be noted under the proper head, and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

Review

I CERTIFY, ON HONOR, That I have carefully examined the above named Volunteer, agreeably to the General Regulations of the Army, and that in my opinion he is free from all bodily defects and mental infirmity, which would, in any way, disqualify him from performing the duties of a soldier.

EXAMINING SURGEON

I CERTIFY, ON HONOR, That I have minutely inspected the Volunteer, George H. Buggs, previously to his enlistment, and that he was entirely sober when enlisted; that, to the best of my judgment and belief, he is of lawful age; and that, in accepting him as duly qualified to perform the duties of an able-bodied soldier, I have strictly observed the Regulations which govern the recruiting service. This soldier has blue eyes, light hair, light complexion, is 5 feet 8 inches high.

DECLARATION OF RECRUIT.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in will must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will counter-sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the recruiting officer.

by sentence of a court martial, or by order before the expiration of a term of enlistment; and I know
of no impediment to my serving honestly and faithfully as a soldier for twelve months.

FINAL STATEMENT

OF

Private Albert B. Taggett
49th Reg't of Missouri Inf

VOLUNTEERS.

Filed March 5 / 1865

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged previously to the discharge of his company, that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; on these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his voucher the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both (three) final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. This endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter on the data necessary to a full understanding of the Soldier's account on the master roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these master rolls, and the Soldier receive any pay or allowance that may be due him at the time of his discharge, and which may not appear on his final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 3d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to baggage, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Butler and Landrums must be entered on the master roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

I, William O. Tate, born in Repton Co.,

and by occupation a Carpenter, Do HEREBY ACKNOWLEDGE to have
volunteered this 5th day of January, 1865,
to serve as a Soldier in the Army of the United States of America, for
the period of Three YEARS; unless sooner discharged by proper authority:
Do also agree to accept such bounty, pay, rations, and clothing, as are, or may be,
established by law for volunteers. And I, William O. Tate, do
solemnly swear, that I will bear true faith and allegiance to the United States
of America, and that I will serve them honestly and faithfully against all their
enemies or opposers whomsoever; and that I will observe and obey the orders of
the President of the United States, and the orders of the officers appointed over
me, according to the Rules and Articles of War.

I CERTIFY, ON HONOR, That I have carefully examined the above-named Volunteer, agreeably
to the General Regulations of the Army, and that, in my opinion, he is free from all bodily defects and
mental infirmity, which would in any way disqualify him from performing the duties of a soldier.

EXAMINING SURGEON.

I CERTIFY, ON HONOR, That I have minutely inspected the Volunteer
previously to his enlistment, and that he was entirely sober when enlisted; that, to the best of my
judgment and belief, he is of lawful age; and that, in accepting him as duly qualified to perform the
duties of an able-bodied soldier, I have strictly observed the Regulations which govern the recruiting
service. This soldier has Blue eyes, Black hair, Dark complexion, is 5 feet

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, those others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent *examina*, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Forma'."

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting *clitrix* or slight depression, let it be noted thus: 'Clitrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circorele, though not sufficient to disqualify, let it be noted under the proper head, and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practised at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be entered upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

Note 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.
Note 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

Colonel

This morning I stated
my case to you, that I had received a Commission
as 2nd Lieut Co "K" 49th Mo Infy, and that a discharge
was granted me, to enable me to accept promotion
as 2nd Lieut Co "K" 49th Mo Infy, dated the 25th day
of February 1865. The regiment left Montgomery Ala
and I was left with Co "K" as 2nd Lieut. A few days
after the departure of the regiment, I reported to
the mustering officer to be mustered in as a

Commissioned officer. He would not muster
me back more than 60 days, although, I had
an affidavit from the Col of the regiment, that I
had done the duties of 2nd Lt since Feb 25/65.

I refused to ~~make~~ be mustered unless I
could be mustered back to date of my
discharge. The A. A. G. of Gen Smith's staff
then revoked the discharge, for reason, as
having failed to be mustered as a com -

missioned officer, and for me to report
to the regiment at Vicksburg Miss
for duty. I reported at Vicksburg, and
the regiment having been ordered to St Louis Mo
for muster out, I was ordered to join the
regt at this place, which upon doing, I
found the regt, had already been mustered
out. I am born on the rolls of Co "G" 49th Regt
Mo vols, as ~~an~~ discharged by order of War
Dept to accept promotion. The order for

discharge was from Gen A S Smith
and not from the War Department. I
wish to be mustered out as a Private.

Will it be necessary, Genl, to have an
order from the War Dept to enable
me to be mustered out as such?
I am quite unwell, with fever & ague, and
will go to my home in St Charles Mo, until I
am better. By informing me early, you
will much oblige.

Note 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Recruiting and Company in which the soldier last served should be given on the back.

Note 2.—An enlistment holds to service. A muster must, in all cases, precede payment of pay, bounty, pension, etc. A muster in full must, in all cases, be filed in the Adjutant General's Office as evidence of muster. The mustering officer, commissary, or assistant commissary of musters, as the case may be, with counter-sign both enlistments as having mustered the soldier into service of the United States before either of them is given to the discharging officer.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, etc., etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) of the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A master-in-must, in all cases, precedes a discharge, pay, bounty, pension, etc. A master-in-roll must, in all cases, be filed in the Adjutant General's Office as evidence of master-in. The recruiting officer, non-commissioned, or assistant commissary of musters, as the case may be, will counter-sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

ARTICLES OF WAR.

ART. 63. When any non-commissioned officer or soldier shall die, or be killed in the service of the United States, the then commanding officer of the troop or company shall, in the presence of two other commissioned officers, take an account of what effects he died possessed of, above his arms and accoutrements, and transmit the same to the office of the Department of War, which said effects are to be accounted for, and paid to the representatives of such deceased non-commissioned officer or soldier. And in case any of the officers so authorized to take care of the effects of deceased officers and soldiers, should, before they have accounted to their representatives for the same, have occasion to leave the regiment or post, by preferment or otherwise, they shall, before they be permitted to quit the same, deposit in the hands of the commanding officer, or of the assistant military agent, all the effects of such deceased non-commissioned officers and soldiers, in order that the same may be secured for, and paid to, their respective representatives.

ARMY REGULATIONS—EDITION OF 1863.

DECEASED SOLDIERS.

Par. 132. Inventories of the effects of deceased non-commissioned officers and soldiers, required by the 25th Article of War, will be forwarded to the Adjutant General, by the commanding officer of the company to which the deceased belonged, and a duplicate of the same to the colonel of the regiment. Final statements of pay, clothing, &c., to duplicate, will be sent to the Adjutant General with one copy of the inventory. When a soldier dies at a post or station absent from his company, it will be the duty of his immediate commander to furnish the required inventory and final statements, and, at the same time, to forward to the commanding officer of the company to which the soldier belonged, a report of his death, specifying the date, place, and cause; to what time he was last paid, and the money or other effects in his possession at the time of his decease, which report will be noted on the next muster roll of the company to which the man belonged. Each inventory will be endorsed, "Inventory of the effects of _____, late of company (—) _____ regiment of _____, who died at _____, the _____ day of _____, 186—." If a legal representative receive the effects, it will be stated in the report. If the soldier leave no effects, the fact will be reported.

Par. 133. Should the effects of a deceased non-commissioned officer or soldier not be administered upon within a short period after his decease, they shall be disposed of by a Council of Administration, under the authority of the commanding officer of the post, and the proceeds deposited with the Paymaster, to the credit of the United States, until they shall be claimed by the legal representatives of the deceased.

Par. 134. In all such cases of sales by the Council of Administration, a statement in detail, or account of the proceeds, duly certified by the Council and commanding officer, accompanied by the Paymaster's receipt for the proceeds, will be forwarded by the commanding officer to the Adjutant General. The statement will be endorsed, "Report of the proceeds of the effects of _____, late of company (—) _____ regiment of _____, who died at _____, the _____ day of _____, 186—."

NOTE 1.—The effects in all cases, when called for, should be turned over to the legal representative, without further authority from the Adjutant General. When the effects are turned over to the relatives of the deceased before these inventories are sent to the Adjutant General, their receipts therefor should be attached to the inventories. Extract from Act of Congress.

SEC. 12. And be it further enacted, That the fees of agents and attorneys for making out and causing to be executed the papers necessary to establish a claim for a pension, bounty, and other allowance before the Pension Office, under this act, shall not exceed the following rates: For making out and causing to be duly executed a declaration by the applicant, with the necessary affidavits, and forwarding the same to the Pension Office, with the requisite correspondence, ten dollars; which sum shall be received by such agent or attorney in full for all services in obtaining such pension, and shall not be demanded or received, in whole or in part, until such pension shall be obtained: and the sixth and seventh sections of an act entitled "An act to grant pensions," approved July [fourteenth,] eighteen hundred and sixty-two, are hereby repealed.

SEC. 13. And be it further enacted, That any agent or attorney who shall, directly or indirectly, demand or receive any greater compensation for his services under this act than is prescribed in the preceding section of this act, or who shall contract or agree to prosecute any claim for a pension, bounty, or other allowance under this act, on the condition that he shall receive a per centum upon any portion of the amount of such claim, or who shall wrongfully withhold from a pensioner or other claimant the whole or any part of the pension or claim allowed and due to such pensioner or claimant, shall be deemed guilty of a high misdemeanor, and, upon conviction thereof, shall, for every such offense, be fined not exceeding three hundred dollars, or imprisoned at hard labor not exceeding two years, or both, according to the circumstances and aggravations of the offense.

Approved July 4, 1864.

NOTE 10.—If any soldier is charged a higher fee than that allowed by law, he must be charged the full rate and the name of the agent to the Pension Office, in order that steps may be taken to have the same refunded.

FINAL STATEMENT

George W. Underwood,
49 Reg't of Infy, 1st Vols.

VOLUNTEERS.

Lied May 12 1865

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being entered out. (Final Statements are never given to men mustered out of service.) That he may at once receive from the Paymaster the pay, &c., due him, and the captain or other commanding officer commanding the company will certify to the act of the delivery of the duplicate certificates, with three certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing allowed, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for each pay, &c., are settled by the 3d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Expenses."

NOTE 5.—Bounty paid by State authorities, and bounty by the United States, can not be entered on this statement.

NOTE 6.—Amounts due the Soldier and his dependents must be entered on the muster roll on which the discharge, death, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used by drafted soldiers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements to duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the Soldier is a drafted man or substitute, the space for the &c., of enclosed, should contain only the word drafted or substitute, as the case may be. If the Soldier is a "VETERAN," (or "RETIRED") the words on a veteran (or retired) as the case may be, should be interlined with the words mustered into the service of the U. S. A statement of all the statements of Veterans or Retired being RECEIVED by the Auditor and be made on the back of each final statement.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasion, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chloccole, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of volunteers, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, in the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of volunteers, etc., etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, etc. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The recruiting officer, commissary, or assistant commissary of musters, as the case may be, will counter-sign both enlistments so having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company to which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, or the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

NOTE 1.

The company commander will here add a statement of all the facts known to him concerning the disease or wound, or cause of disability of the soldier; the time, place, manner, and all the circumstances under which the injury occurred, or disease originated or appeared; the duty, or service, or situation of the soldier at the time the injury was received or disease contracted, stating particularly whether the injury was received or the disease contracted in the line of his duty; and whatever other facts may aid a judgment as to the cause, immediate or remote, of the disability, and the circumstances attending it.

When the facts are not known to the company commander, the certificate of any officer, or affidavit of other person having such knowledge, will be appended—as the surgeon in charge of a hospital, the officer commanding a detachment of recruits, &c., &c.

NOTE 2.

When a probable case for pension, special care must be taken to state the degree of disability—as $\frac{1}{2}$, $\frac{3}{4}$, &c., &c.; to describe particularly the disability, wound, or disease; the extent to which it deprives him of the use of any limb or faculty, or affects his health, strength, activity, constitution, or capacity to labor or earn his subsistence. The surgeon will add, from his knowledge of the facts and circumstances, and from the evidence in the case, his professional opinion of the cause or origin of the disability. In the case of discharges by Medical Inspectors, the last paragraph will state that the "discharge was given by consent of the committee, after a personal examination, and for disability, the nature, degree, and origin of which are correctly described in the within certificate."

Par. 1200 Regulations, Edit. 1861.

Medical officers, in giving certificates of disability, are to take particular care in all cases that have not been under their charge; and especially in epilepsy, convulsions, chronic rheumatism, derangement of the urinary organs, ophthalmia, ulcers, or any obscure disease liable to be feigned or purposely produced; and in no case shall such certificate be given until after sufficient time and examination to detect any attempt at deception.

DIRECTIONS.

This certificate will be made out in duplicate by the soldier's company commander, or other officer commanding the separate detachment to which he belongs and sent by him to the surgeon who has charge of the hospital where the soldier is sick. The surgeon will then fill out and sign the surgeon's certificate, and forward these papers to the regimental, detachment, or post commander, who will forward them, with his action endorsed thereon, through the proper channel, to his division commander; or, if the troops are not attached to a division, to his corps, department, or other commander or officer to whom the authority to discharge enlisted men may be specially delegated.

These certificates, after having received the action of the highest authority to which they are required to be sent, will be returned through the same channel to the regimental, post, or detachment commander, who will, if the discharge is authorized by the endorsement of the proper authority, sign the soldier's discharge, and the last certificate on this paper, and the soldier is furnished with the proper final statements in duplicate, and forward BOTH of these certificates down to the Adjutant General United States Army, at Washington, D. C.; they will not under any circumstances be given into the hands of the soldier.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by accumulations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example, if the man has received at any time a blow upon the head with a resulting fracture or slight depression, let it be noted thus: 'Fracture and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of bare cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a *Chancroid*, though not sufficient to disqualify, let it be noted under the proper head, and so of Hemorrhoids or any other affection. The vaccination scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English, and when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an *absolute disqualification* will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

FINAL STATEMENT

abr
103
Abraham Walter Cox
449th Reg't of Michigan Inf'ty

VOLUNTEERS.

NOTE 1.—Two of three certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out (Final Statements are never given to men mustered out of service,) that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of the account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be added upon the receipt of these muster rolls, and the Soldier receive any pay or allowance that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 2d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and his dependents must be entered on the muster roll on which the discharge is reported, &c., as reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used by drafted Volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the Soldier is a drafted man or substitute, the space for time, &c., of service, should contain only the word *drafted* or *substitute*, as the case may be. MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, some others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they essentially may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. Such however should be noted."

"Upon inspection, the man be found to have a Circumcised, though not disqualifying, let it be noted under the proper head, and so of hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practised at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachectics, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, soon after consideration, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document then completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example, if the man has received at any time a blow upon the head with a resulting ecchymosis or slight depression, let it be noted thus: 'Ecchymosis and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circumcised, though not sufficient to disqualify, let it be noted under the proper head, and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the man being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circumcised, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. MODE OF EXAMINING A RECRUIT

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, more others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed as they effectually may be, and sometimes are, by incrustations of dirt a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that in order to avoid all subsequent excuses, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the Form."

"The Surgeon is to note every peculiarity or deviation from the normal Standard in each particular region. For example: If the man has been fired at any time or blow upon the head with a resulting dentrix or slight depression, let it be noted thus: 'Centrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause ascribed by the man, recorded. It is not uncommon to find marks of free clipping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circumcised, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practised at the rendezvous or Depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexias, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after consultations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised, and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

FINAL STATEMENT

OF

Private William Helch
47th Reg't of Mass Infantry

VOLUNTEERS.

Dec 11 1863

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged previously to the discharge of his company, that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; on these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his voucher the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. This endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the company commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 2d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to personal or horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and bounty by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and his dependents must be entered on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veteran, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier has served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

MODE OF EXAMINING A RECRUIT

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the man being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disappear*, when concealed as they actually may be, and sometimes are, by fluctuations of skin-moisture."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of *all his clothing* and the examination proceeded with systematically, in the order of response as indicated in the Form."

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not unnecessary to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circumcised, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon. In case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

TREATMENT.

[HERE NOTE IMPORTANT COMPLICATIONS AND ALL OPERATIONS.]

RESULT AND DATE.

NOTE 1.

The company commander will here add a statement of all the facts known to him concerning the disease or wound, or cause of disability of the soldier; the time, place, manner, and all the circumstances under which the injury occurred, or disease originated or appeared; the duty, or service, or situation of the soldier at the time the injury was received or disease contracted, stating particularly whether the injury was received or the disease contracted in the line of his duty; and whatever other facts may aid a judgment as to the cause, immediate or remote, of the disability, and the circumstances attending it.

When the facts are not known to the company commander, the certificate of any officer, or affidavit of other person having such knowledge, will be appended—as the surgeon in charge of a hospital, the officer commanding a detachment of recruits, &c., &c.

NOTE 2.

When a probable case for pension, special care must be taken to state the degree of disability—as *l.*, *r.*, &c., &c.; to describe particularly the disability, wound, or disease; the extent of which it deprives him of the use of any limb or faculty, or affects his health, strength, activity, constitution, or capacity to labor or earn his subsistence. The surgeon will add, from his knowledge of the facts and circumstances, and from the evidence in the case, his professional opinion of the cause or origin of the disability. In the case of discharges by Medical Inspectors, the last paragraph will state that the "discharge was given by consent of the soldier, after a personal examination, and for disability, the nature, degree, and origin of which are correctly described in the within certificate."

Par. 1200 Regulations, Edit. 1861.

Medical officers, in giving certificates of disability, are to take particular care in all cases that have not been under their charge; and especially in epilepsy, convulsions, chronic rheumatism, derangement of the urinary organs, ophthalmia, ulcers, or any obscure disease liable to be feigned or purposely produced; and in no case shall such certificate be given until after sufficient time and examination to detect any attempt at deception.

DIRECTIONS.

This certificate will be made out in duplicate by the soldier's company commander, or other officer commanding the separate detachment to which he belongs, and sent by him to the surgeon who has charge of the hospital where the soldier is sick. The surgeon will then fill out and sign the surgeon's certificate, and forward these papers to the regimental, detachment, or post commander, who will forward them, with his action endorsed thereon, through the proper channel, to his division commander; or, if the troops are not attached to a division, to his corps, department, or other commander or officer to whom the authority to discharge enlisted men may be specially delegated.

These certificates, after having received the action of the highest authority to which they are required to be sent, will be returned through the same channel to the regimental, post, or detachment commander, who will, if the discharge is authorized by the endorsement of the proper authority, sign the soldier's discharge, and the last certificate on this paper; see that the soldier is furnished with the proper final statements in duplicate, and forward both of these certificates direct to the Adjutant General United States Army, at Washington, D. C., they will not, under any circumstances, be given over the hands of the soldier.

Note 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the
volunteer service. They will be made out in
duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the
Adjutant General, and one to accompany the
Adjutant General. A muster in roll must, in all cases, be filed
in the Adjutant General's Office as evidence of muster in. The mustering officer, commissary, or assistant commissary
of musters, as the case may be, will counter-sign
both enlistments as having mustered the soldier into the service of the United States before either of them is given to the

Note 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

Note 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the discharging officer.

NOTE 1.

The company commander will here add a statement of all the facts known to him concerning the disease or wound, or cause of disability of the soldier; the time, place, manner, and all the circumstances under which the injury occurred, or disease originated or appeared; the duty, or service, or situation of the soldier at the time the injury was received or disease contracted, stating particularly whether the injury was received or the disease contracted in the line of his duty; and whatever other facts may aid a judgment as to the cause, immediate or remote, of the disability, and the circumstances attending it.

When the facts are not known to the company commander, the certificate of any officer, or affidavit of other person having such knowledge, will be appended—as the surgeon in charge of a hospital, the officer commanding a detachment of recruits, &c., &c.

NOTE 2.

When a probable cause for pension, special care must be taken to state the degree of disability—as *h. p.*, &c., &c.; to describe particularly the disability, wound, or disease; the extent to which it deprives him of the use of any limb or faculty, or affects his health, strength, activity, constitution, or capacity to labor or earn his subsistence. The surgeon will add, from his knowledge of the facts and circumstances, and from the evidence in the case, his professional opinion of the cause or origin of the disability. In the case of discharges by Medical Inspectors, the last paragraph will state that the "discharge was given by consent of the soldier, after a personal examination, and for disability, the nature, degree, and origin of which are correctly described in the within certificate."

Par. 1200 Regulations, Edit. 1861.

Medical officers, in giving certificates of disability, are to take particular care in all cases that have not been under their charge; and especially in epilepsy, convulsions, chronic rheumatism, derangement of the urinary organs, ophthalmia, ulcers, or any obscure disease liable to be feigned or purposely produced; and in no case shall such certificate be given until after sufficient time and examination to detect any attempt at deception.

DIRECTIONS.

This certificate will be made out in duplicate by the soldier's company commander, or other officer commanding the separate detachment to which he belongs, and sent by him to the surgeon who has charge of the hospital where the soldier is sick. The surgeon will then fill out and sign the surgeon's certificate, and forward these papers to the regimental, detachment, or post commander, who will forward them, with his action endorsed thereon, through the proper channel, to his division commander; or, if the troops are not attached to a division, to his corps, department, or other commander or officer to whom the authority to discharge enlisted men may be specially delegated.

These certificates, after having received the action of the highest authority to which they are required to be sent, will be returned through the same channel to the regimental, post, or detachment commander, who will, if the discharge is authorized by the endorsement of the proper authority, sign the soldier's discharge, and the last certificate on this paper; see that the soldier is furnished with the proper final statement in duplicate, and forward BOTH of these certificates direct to the Adjutant General United States Army, at Washington, D. C.: they will not, under any circumstances, be given into the hands of the soldier.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evading, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be directed of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal Standard in each particular region. For example: If the man has received at any time a blow upon the head, with a resulting ecchymosis or slight depression, let it be noted thus: 'Ecchymosis and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circumcised, though not sufficient to disqualify, let it be noted under the proper head, and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be entered upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign with enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

VOLUNTEER ENLISTMENT.

STATE OF

TOWN OF

I, Alfred M. Williams born in Lincoln County
in the State of Michigan aged eighteen years,
and by occupation a Farmer Do HEREBY ACKNOWLEDGE to have
volunteered this eight day of August 1864,
to serve as a Soldier in the Army of the United States of America,
for the period of TWELVE MONTHS, unless sooner discharged by
proper authority: Do also agree to accept such bounty, pay, rations and
clothing, as are, or may be, established by law for volunteers. And I,
Alfred M. Williams do solemnly swear, that I will bear true faith
and allegiance to the United States of America, and that I will serve
them honestly and faithfully against all their enemies or opposers whom-
soever; and that I will observe and obey the orders of the President of
the United States, and the orders of the officers appointed over me,
according to the Rules and Articles of War.

Sworn and subscribed to, at St. Louis, Mo.

this 24 day of Dec 1861

BEFORE Robert M. J.

I CERTIFY, ON HONOR, That I have carefully examined the above named Volunteer, agreeably to the General Regulations of the Army, and that in my opinion he is free from all bodily defects and mental infirmity, which would, in any way, disqualify him from performing the duties of a soldier.

EXAMINING SURGEON

I CERTIFY, ON HONOR, That I have minutely inspected the Volunteer, Franklin
Franklin previously to his enlistment, and that he was entirely sober when
enlisted; that, to the best of my judgment and belief, he is of lawful age; and that, in accepting him
as duly qualified to perform the duties of an able-bodied soldier, I have strictly observed the Regula-
tions which govern the recruiting service. This soldier has blue eyes, light hair, light
complexion, is 5 feet 0 inches high.

RECRUITING OFFICER

Mustered into the service of the United States, for twelve months from date of enlistment, in Company _____
Regiment of _____ Volunteers, on the _____ day of _____, 186____.

Extract from Act of Congress.

SEC. 12. *And be it further enacted*, That the fees of agents and attorneys for making out and causing to be executed the papers necessary to establish a claim for a pension, bounty, and other allowance before the Pension Office, under this act, shall not exceed the following rates: For making out and causing to be duly executed a declaration by the applicant, with the necessary affidavits, and forwarding the same to the Pension Office, with the requisite correspondence, ten dollars; which sum shall be received by such agent or attorney in full for all services in obtaining such pension, and shall not be demanded or received, in whole or in part, until such pension shall be obtained; and the sixth and seventh sections of an act entitled "An act to grant pensions," approved July [fourteenth,] eighteen hundred and sixty-two, are hereby repealed.

SEC. 13. *And be it further enacted*, That any agent or attorney who shall, directly or indirectly, demand or receive any greater compensation for his services under this act than is prescribed in the preceding section of this act, or who shall contract or agree to prosecute any claim for a pension, bounty, or other allowance under this act, on the condition that he shall receive a per centum upon any portion of the amount of such claim, or who shall wrongfully withhold from a pensioner or other claimant the whole or any part of the pension or claim allowed and due to such pensioner or claimant, shall be deemed guilty of a high misdemeanor, and, upon conviction thereof, shall, for every such offense, be fined not exceeding three hundred dollars, or imprisoned at hard labor not exceeding two years, or both, according to the circumstances and aggravations of the offense.

Approved July 4, 1864.

NOTE 10.—If any soldier is charged a higher fee than that allowed by the above act, he shall report the fact and the name of the agent to the Adjutant General, in order that steps may be taken to have the same refunded.

ADJUTANT GENERALS OFFICE.

DUPLICATE WITH INVENTORY SENT TO AUDITOR

FINAL STATEMENT

OF

Reg't of

VOLUNTEERS.

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out of service; that he may at once receive from the Paymaster the pay, &c., due him, and the receipt of some commissioned officer commanding the company and certifying to the act of the delivery of the duplicate certificates, with these certificates the Soldier is entitled to his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster, the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a final statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to fill under heading of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is complete. These accounts for back pay, &c., are settled by the Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and by the United States, will not be entered on the statement.

NOTE 6.—Amounts due the Soldier and family should be entered on the muster roll on which the discharge, death, &c., is reported, as well as on the final statement, otherwise the money cannot be collected from the United States.

NOTE 7.—This blank will be used for drafted volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital, or on detached service, his descriptive list, if he has one, should be sent with the final statements in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the soldier is a drafted man, or otherwise, the space for these &c., of course, should contain only the word *drafted* or *substituted* as the case may be. If the Soldier is a *volunteer*, or *drafted*, the words *as a volunteer*, or *drafted*, in the case may be, should be interlined after the words *mustered into the service of the U. S.* A statement of all the installments of *Veteran or Invalid Bounty* RECEIVED by the Soldier must be made on the back of each final statement.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be put on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede a must of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, necessary, or assistant commander of musters, as the case may be, will counter-sign both enlistments as having mustered the soldier into the service of the United States, before either of them is given to the disbursing officer.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster in.

The mustering officer, company, or assistant commissary of musters, as the case may be, will counter-sign with enlistments as having mustered the soldier into the service of the United States before either of them is given to the mustering officer.

FINAL STATEMENT

OF

Private John A. Williams
49th Reg't of the Infantry

VOLUNTEERS.

John A. Williams

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged previously to the discharge of his company, that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; on these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his voucher the duplicate certificate.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. This endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the company commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 2d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and Company must be entered on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of volunteers, etc., etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting returns of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, etc. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

the period of THREE YEARS, unless sooner discharged by proper authority:
Do also agree to accept such bounty, pay, rations, and clothing, as are, or may be,
established by law for volunteers. And I, Samuel Williamson, do

I CERTIFY, ON HONOR, That I have carefully examined the above-named Volunteer, agreeably
to the General Regulations of the Army, and that, in my opinion, he is free from all bodily defects and
mental infirmity, which would in any way disqualify him from performing the duties of a soldier.

EXAMINING SURGEON.

I CERTIFY, ON HONOR, That I have minutely inspected the Volunteer Samuel Williamson
previously to his enlistment, and that he was entirely sober when enlisted; that, to the best of my
judgment and belief, he is of lawful age; and that, in accepting him as duly qualified to perform the

service. This soldier has Grey eyes, Dark hair, light complexion, is five

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circumcise, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practised at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon retrospection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being washed about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed even before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of skin a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If upon inspection, the man be found to have a Circumcised, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practised at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Department to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon. In case of Rejection, the documents thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chirocele, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon subscription should be endorsed upon the Form, and signed by the Surgeon. In case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting agent) and one to accompany the accounts of the officers who pays bounty, &c. The Regiment and Company in which the soldier last served are to be entered in all cases. A muster-roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The muster-roll, bounty, or assistant commissary of musters, as the case may be, will counter-sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Marks upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circumole, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any cap of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example, if the man has received at any time a blow upon the head with a resulting contusion or slight depression, let it be noted thus: 'Contusion and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circumcised, though not sufficient to disqualify, let it be noted under the proper head, and as of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practised at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon re-inspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain diseases that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of fifth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of organs as indicated in the 'Form'."

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a blunt or pointed weapon, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without these being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chancerele, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon re-inspection should be endorsed upon the Form, and signed by the Surgeon. In case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

EXAMINING SURGEON.

I CERTIFY, ON HONOR, That I have minutely inspected the Volunteer
previously to his enlistment, and that he was entirely sober when enlisted; that, to the best of my
judgment and belief, he is of lawful age; and that, in accepting him as duly qualified to perform the
duties of an able-bodied soldier, I have strictly observed the Regulations which govern the recruiting
service. This soldier has blue eyes, dark hair, fair complexion, is
feet 1 inches high.

John A. Young
Regiment of 1st Volunteers,
RECRUITING OFFICER.

(A. G. O. No. 747.)

Mustered into the service of the United States, for three years or during the war, from date of enlistment, in Company
Regiment of 1st Volunteers, on the 11th day of January, 1865, at St. Louis

MODE OF EXAMINING A RECRUIT

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify when concerned, as they effectually may be, and sometimes are, by maculations of skin a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically in the order of regions as indicated in the Form."

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example, if the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circumcised, though not sufficient to disqualify, let it be noted under the proper head, and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis or other Carcinoma, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be entered upon the Form and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

NOTE 1.—The blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.
